# CASSECRROUTE TABLE

The **CASSECRROUTE TABLE** has established itself as a classic. Anyone who is fond of picnic tables will find it hard to get up from this table. There are no beams to climb over, you just sit down and let the party begin.

You can also rest your back against the table top. You can rest assured, the table will not tip over: the **CASSECRROUTE TABLE** is a solid and robust piece of furniture.

For those who like more comfort, you can place an easy chair on both narrow sides.

Available sizes in iroko: 180cm, 240cm, 300cm, 360cm and the 420cm king size. Up to 14 meter in aluminium! This picnic table is available in untreated iroko or in aluminium in white or any other RAL colour.

This picnic table is ideal for socializing...

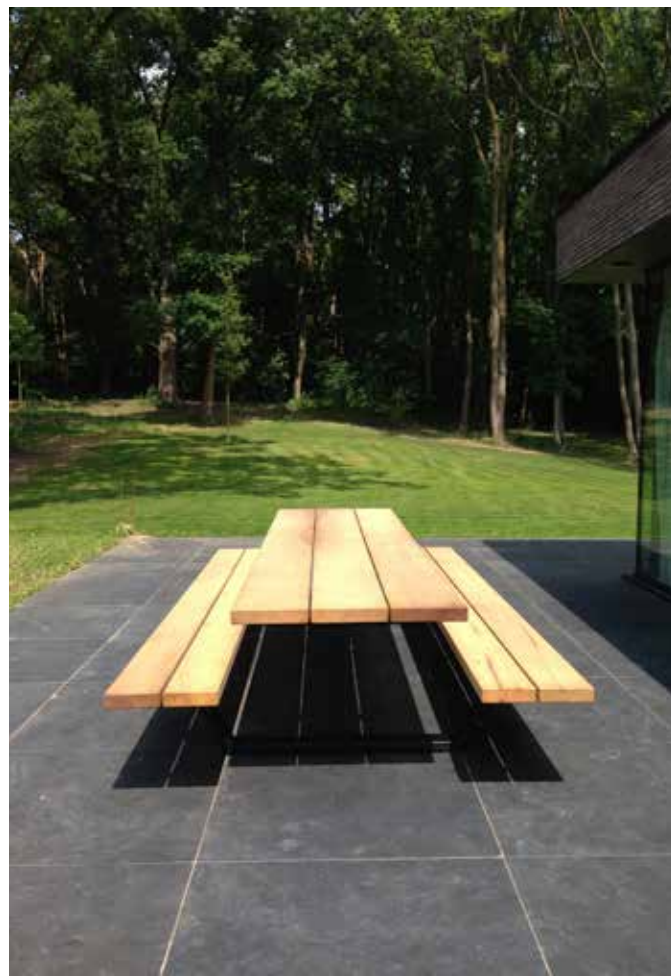

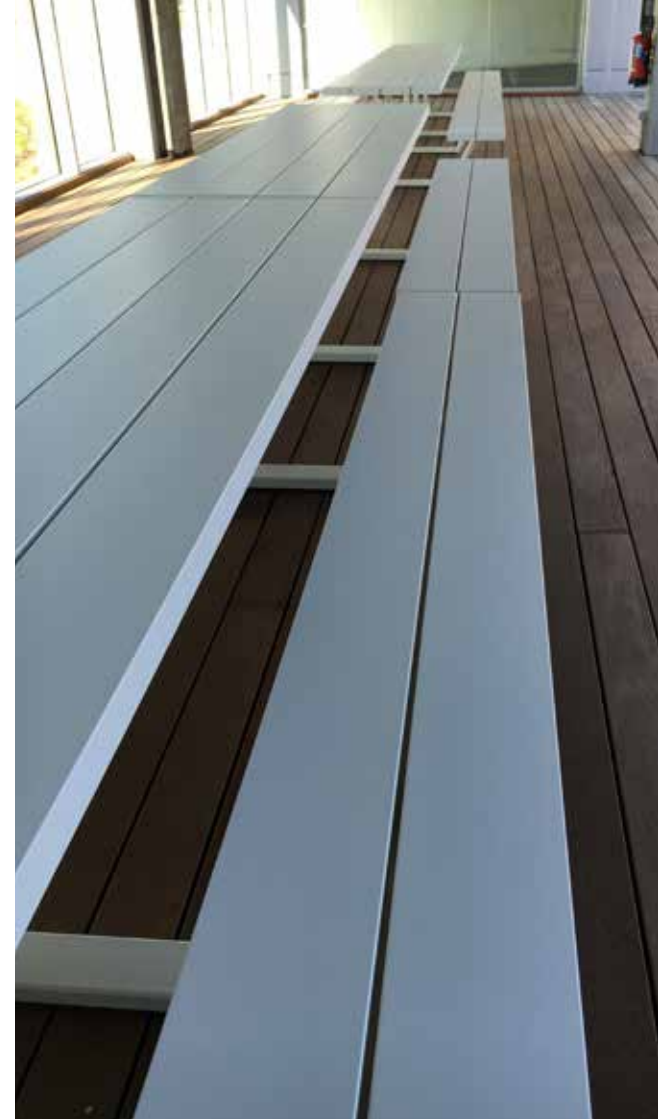

# **PICNIC IN THE SHADOW**

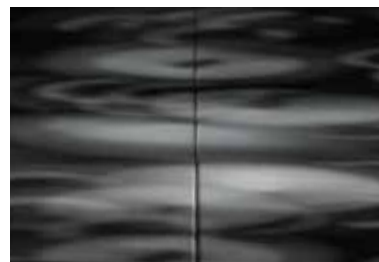

Comfort, shadow and liberty...  
Just like in the forest.

240cm long. For ten people enjoying  
a nice book or just having a good time.

Powder coated steel. RAL 9006.  
240×160cm - Height: 205cm

Designed by Ivo Caruso & Alessandro D'Angeli.

**[www.picnicintheshadow.com](http://www.picnicintheshadow.com)**

# BEER TABLE

The **BEER TABLE** is a party table at which you can stand or sit at bar height. Parties, aperitif, walking dinner, or just enjoying dinner together.

The picnic table is 110cm high with an 80cm seating height. It is available in all Cassecroute sizes: 180cm, 240cm, 300cm, 360cm and 420cm for wooden tables. And up to 14 meters for an aluminium **BEER TABLE** in any possible RAL colour.

As with each piece of Cassecroute furniture, you can sit with your back against the picnic table using it as a backrest.

Let's party...

# CARRÉ

The **CARRÉ** is a square picnic table that seats 8 to 10 persons for eating and up to 12 people for chatting over a fine glass of wine. Sitting around a square table makes for pleasant conversation, and take my word for it: the **CARRÉ** is ideal for lingering and socializing.

The four corners are each provided with an opening to facilitate seating. You can also place stools at the corners, thereby creating four additional seats. As with each piece of Cassecroute furniture, you can sit with your back against the table using it as a backrest.

The table top dimensions are 144cm x 144cm and the overall size is 236 cm x 236 cm in iroko (146 x 146 / 238 x 238 in aluminium).

Aluminium tables are available in any RAL colour.

Elegant, cosy and comfortable...

# FIELD KITCHEN

The **FIELD KITCHEN** is a piece of furniture that you set up in early spring and that can afterwards be used as an indoor table.

It can be fitted with the Cassecroute top mounted tap and/or the ceramic water bowl designed by Roos Loeckx. Cooking is done on a hot plate, in a tajine, or on a top mounted BBQ. No built-in but top mounted components for optimal flexibility and multifunctionality...

The wooden **FIELD KITCHEN** is available in all Cassecroute sizes: 180cm, 240cm, 300cm, 360cm and 420cm. Height: 90cm.

In aluminium you can order up to 14 meters and in any possible RAL colour.

Enjoy the simple things in life...

# BENCH

**BENCH** is a free standing bench that is 180/240/300/360 or 420cm long in iroko wood and 45cm high. An invisible piece of furniture, it is perfect when standing against a house wall, by a tree, in the kitchen garden or somewhere in the yard.

**BENCH** 180cm also fits the head of the Cassecroute Table because the dimensions are identical. When you have a large number of guests, you just pull the **BENCH** up to the table.

Like all Cassecroute furniture, the **BENCH** can be ordered in iroko or aluminium (up to 14m!), in any colour of your choice.

Did you know that there are people who collect benches...

# LA GRANDE RONDE

Sitting together around a table, although a common cliché it is such an obvious truth!

Sitting together, chatting, enjoying a game of cards good food and drinks at **LA GRANDE RONDE** is pure enjoyment...

Powdered steel and aluminium in all colours.

Cushions are available in foam and coating.

Design: Studio Segers

Seats  
8 to 12  
people

# ALUMINIUM TABLES

The aluminium collection, comprising the **CASSECRROUTE TABLE**, **BEER TABLE**, **FIELD KITCHEN** and **BENCH**, is available in lengths up to 14 m.

The beams are made of 95% recycled aluminium. They are subsequently coated in the four basic colours selected by Wim Segers and Ronald Mattelé.

The Cassecroute collection still has a warranted lifetime of 3 to 4 generations, and remains fully recyclable. The base is still made of metalized steel and powder coated in different colours.

Available in any RAL colour.

In one piece  
up to 14m  
in length!

Not a single  
tree is felled for  
the production  
of each aluminium  
CASSECROUTE  
TABLE.

# ABOUT CASSECRROUTE

At **CASSECRROUTE** picnic tables and garden furniture are built - since 2008 - which will last for generations and which will be the joy of your grand children. Its wood, steel and aluminium are indestructible - its design is timeless.

## PHILOSOPHY

25 years of experience with garden furniture have inspired me to conceive my own design, pretty much like the local village furniture maker in the old times.

No expensive publicity, no lavish showrooms, just drop by to try your new furniture in my garden.

Honesty is the best policy...

**100%**  
hand made  
in Belgium

## BUY FROM THE SOURCE

There are no secrets, the fewer mouths to feed in the distribution chain, the cheaper the product.

At cassecroute you buy direct from the producer, and therefore also at a fair price.

You can also save on shipping if you pick up the table yourself. In addition, you will receive a set of professional petanque balls.

## DESIGNERS

Wim Segers and Ronald Mattelé both have been developing garden furniture for years. Wim has designed several major classics and Ronald has put several furniture companies on the map.

**CASSECRROUTE** is the result of a long maturing process, countless hours of philosophizing about yesterday and today, and about how people can be made to sit together and enjoy each other's company in an unconventional, honest and affordable manner.

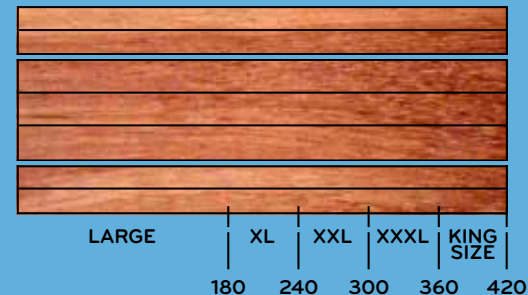

# INFO

Cassecoute picnic tables are available in different lengths\*:

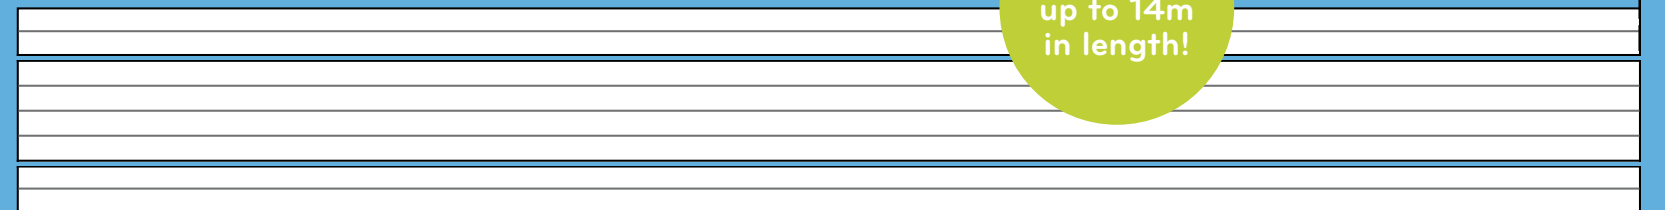

- Wooden picnic tables are made up to 420cm.
- Aluminium tables are built up to 14m!

\* Cassecroute Table, Beer Table, Field Kitchen, Bench.

## Wooden tables

## Aluminium tables

## COLOURS

- Aluminium tables are available in any RAL colour.
- The supports of the wooden tables are also available in any RAL colour.

One table seats up to 60 people!  
Who else can say that?

In one piece up to 14m in length!

## IROKO

The tables can be ordered in untreated natural wood, oiled wood or in aluminium (95% recycled).

The wooden furniture is made of iroko. Iroko is a tropical hardwood from Africa, which we officially purchase in accordance with ecologically sustainable practice.

Durability class: 1-2, same as teak.

Areas of application: shipbuilding, solid cabinets, and outdoor carpentry work.

To protect the metal frame, the table is mounted on a solid core base.

The beams are predrilled to prevent the wood from splitting. Stainless steel screws and bolts to prevent corrosion and rust marks are obviously included.

The metal base is made of electrolytically galvanized steel with polyester powder coating. Here, too, a fully ecological process is used by a manufacturer committed to sound social practices.
